

**Map 7-1b
Impervious Surface Area
within Highly Vulnerable
Aquifers (HVA)**

**Lower Thames Valley
Source Protection Area
Assessment Report**

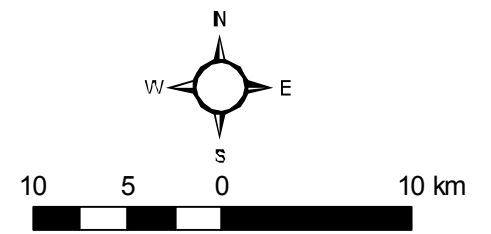

Legend

- Roads
- Municipal Boundaries
- County Boundaries
- Source Protection Area

Percent Impervious

- less than 1.0
- 1.0 - 7.9
- 8.0 - 79.9
- greater than or equal to 80.0

Note: The Percent Impervious is displayed on a 1 km grid, but the calculation only takes into account the vulnerable area within the grid cell.

Map created by LTVCA, October 29, 2010.

Base mapping produced under license with the Ontario Ministry of Natural Resources. © 2010.

Source Protection Area Boundary provided by Ontario Ministry of the Environment, 2006.

Impervious Surface Area, LTVCA, 2010.
Impervious surface area calculated only for those areas where an associated threat can exist; for HVAs vulnerability scores 6 or greater.
